QUALITY POLICY STATEMENT

AGMA Ltd is concerned with the manufacture and supply of a wide range of formulated chemical products to internal or customer specification. Principal markets include corrosion control, industrial hygiene and speciality private label blended chemical products.

The Board of Management:

- Will ensure that quality matters are communicated to and understood by every employee;
- Are committed to a policy of continuous improvement in all areas of the business;
- Will employ every opportunity to implement prevention rather than cure;
- Will operate to the requirements of the British Standard ISO 9001:2008;
- Will ensure that all its products and services meet the agreed requirements of its customers at all times;
- Will continually monitor its Quality Management System, using management review and audit techniques to maintain suitability and establish quality objectives.
